

## **B-1 COMMUNITY BUSINESS**

Community Business is designed primarily to accommodate commercial activities and service needs of area residents with the service area not confined to any one neighborhood. Businesses may range from small scale to large in size.

Community Business land uses should be avoided in productive agricultural soil areas and in floodplains, wetlands, and other environmentally sensitive lands. They should not adversely impact adjacent land uses. Density should be controlled in order to decrease the need for sewer and water. Location should be emphasized on the main travel corridors of the town in order to take advantage of existing traffic patterns and to maintain the high quality/ physical conditions of the town roads.
